

This document contains release notes for the Release 3.15 of FOIAonline, for release after COB on April 28, 2020. This document provides a summary of enhancements, bug fixes, and other updates contained in the release.

New Enhancements

- Added restrictions to search results so cases do not display when a user searches a word present in a Requester Name or Description field that is not available to the public.
- Updated permissions to allow registered users the complete registered user view of their own cases when accessed via Quick or Advanced Search.
- Expanded validation to allow dashes and additional characters in phone numbers and zip codes.

Bug Fixes

- Fixed issue where public and registered users were able to see incomplete PAY-GOV requests that did not have a successful pre-payment.
- Fixed issue where required validation would not apply on custom fields when configured by the agency.
- Fixed issue where the My Cases dashboard would generate errors after being logged out.
- Fixed issue where Admin Cost would generate errors after a Pay.gov payment failed or was canceled.
- Fixed type-ahead drop-down results to allow users to:
 - Search on agency acronym or agency acronym chain
 - Search on full name of an individual
 - Search when the agency name contains a space
 - View results in order of agency chain acronym
- Fixed issue where agency users could not edit the Requester Information section on a referral when the Fee Limit was \$0.00.
- Fixed issue where edits made to the Requester Information section were retained after clicking Cancel.
- Fixed issue where records uploaded on tasks were visible on other tasks associated with the request.
- Fixed issue where requester information would always auto-populate as a US address for military or international requesters.
- Fixed issue where cases would not display in the View My Requests dashboard when registered users updated their account information.

Other Updates

- Updated role restrictions on closed cases.
- Updated security permissions and restrictions for reviewer roles.
- Updated Account Lock/Deactivate warning emails to specify the email address of the account.
